Facing redundancy?

Redundancy can be one of the most challenging and stressful things you'll ever face. And you'll understandably feel daunted and unsure of what to do next. Thankfully, PACE can help.

Partnership Action for Continuing Employment (PACE), is the Scottish Government's initiative for responding to redundancy situations. PACE is a partnership of organisations dedicated to providing you with the advice and guidance you may need if you are made redundant or are facing redundancy. We can help you take stock, consider your career options, and make the decisions that are right for you.

This guide summarises the free, impartial advice and support available to you in five key sections:

- 1 understand the redundancy process, your rights and entitlements**
- 2 check what benefits you may be entitled to**
- 3 practical advice on getting a new job**
- 4 identify learning and training opportunities**
- 5 business start-up.**

Skills Development Scotland leads the delivery of PACE on behalf of the Scottish Government.

Visit **redundancyscotland.co.uk** to find more information on the range of PACE services and contact information for support in your local area.

Call the helpline on **0800 917 8000** to speak to an adviser, or scan the **QR code** below to request a callback.

1. Understand the redundancy process, your rights and entitlements

Case study

Phil Fowler had been working for a student accommodation company when he was made redundant. Phil, from Dunfermline realised that redundancy was inevitable as the company suffered during the Covid-19 pandemic.

Phil said: "I realised that my job was under threat. That's when I started looking for support. I was interested in the tech side of my job and felt that this was something I could pursue a career in following redundancy."

"I searched online and found redundancy support available from Skills Development Scotland as part of PACE.

"I spoke to a PACE adviser about my situation and that I was keen to move into the digital sector. She spoke to me about making informed choices and about funding options. She suggested that I look at job adverts to see what was in demand which would give me an idea of training options."

He added: "I also got help with my CV. When you're made redundant you lose confidence in yourself and your skills. The support helped keep me on track, as it was

a really worrying and challenging time."

"All the work I had done on my CV paid off. It got to a point where I was turning down opportunities."

Phil was successful in securing a Technical Support Analyst role. He said: "PACE support helped me achieve what I wanted. I would 100% recommend the support from SDS and PACE. They can help you with your next steps, whether that's a career change or looking for another role in the same industry."

3. Practical advice on getting a new job

Jobcentre Plus

The Jobhelp website provides a wide range of job search help and advice, including information about working in critical sectors and the latest vacancies.

Case study

Mela Lynch was working at Amazon for almost 15 years when she was made redundant. Mela, from Inverkip, was really worried when she heard about the closure of the site in Gourrock.

Mela said: "I was shocked when I heard that we were being made redundant. I was really worried, especially because of my age, whether I'd get another job."

She continued: "My husband and I searched online for help the next day and found redundancy support available from Skills Development Scotland as part of PACE."

"I met with a PACE adviser who gave me lots of advice, including updating my CV and coaching me through next steps such as searching and applying for jobs. She really helped build my confidence and kept encouraging me throughout the whole process."

Mela continued: "Because I had previous experience working in a care home, she suggested that the care sector might be a route that I could go down, as well as other options including warehousing.

She helped me identify the skills that I could use, and as a result was successful in getting a job!

Mela is now a domestic at Inverclyde Hospital in Greenock.

She says: "PACE has been really great in supporting me through the redundancy process. They're so helpful and will help point you in the right direction and help with getting new skills as well. I would definitely tell people to use PACE and SDS to help you through redundancy. It was a great experience for me."
